SUMMARY

A highly organized and hard-working individual seeking a full-time web developer position to gain practical experience and hone my skills to grow professionally while giving my best to contribute to my team and organization's success.

PROFESSIONAL EXPERIENCE

Pixel8 Web Solutions & Consultancy Inc.
Frontend Developer Intern　　February 06, 2024 - April 23, 2024

- Designed and developed visually appealing and user-friendly interfaces for real-world projects website applications using Vue.js and Quasar Framework.
- Ensured the frontend code was responsive and compatible across different web browsers and devices to provide a consistent user experience.
- Created REST API endpoints using Vue.js and Axios
- Used JSON server for database prototyping.
- Collaborated with UI/UX designers to implement their designs in Figma and with backend developers to connect frontend to PHP backend API endpoints.
- Optimized frontend code and assets to improve page load times and overall performance.
- Used version control systems such as Git and GitLab to manage codebase changes and collaborate with team members effectively.
- Experienced in handling frontend development of accounting management system, retail store inventory management system, and purchasing management system
- Selected to be included in Frontend Leadership Training
